Lib Dems back

the fight for a people's vote

We are winning

the fight for a people's vote

In December Wolverhampton Lib Dems were joined by members of other organisations that support a People's Vote to ask Christmas shoppers in Queen Square what they thought. **Over 71% want a second vote** and only 22% think Theresa May's deal is better than staying in the EU.

Wolverhampton Liberal Democrats joined 700,000 people from all over the UK who marched peacefully to Parliament Square to demand a new referendum on Brexit.

Now millions of people of all parties and none demand a final say on the Brexit deal.

LIB DEMS say it's your decision

"Jeremy Corbyn risks being the midwife of a hard Brexit"

Former Labour MP David Miliband

Millions of people across the country are worried and uncertain about what Brexit means for them and their family. With so much at stake, it is vital that the British public get the final say on the Brexit deal.

Future generations will pay the price of a botched Brexit years after today's scheming politicians have gone.

"Theresa May is playing a highly perilous game of chicken in which many people's livelihoods and possibly people's lives are at stake"

The Observer 23 Dec 2018

That's why the Lib Dems have spent the last two years working to put the final decision in the hands of the people it will affect.

200,000 people have signed up to support the campaign and tens of thousands have joined the party.

Theresa May's Conservatives are making a mess of Brexit. Their handling of Brexit has been a national embarrassment...

...and Labour are letting the Conservatives get away with it. Jeremy Corbyn must listen to Labour Party members who want a People's Vote.
