Oli Williams calls for action to clear up Perry Hall Park

Oli Williams knows only too well how the issue of the illegal travellers on Perry Hall Park is impacting the lives of local residents. He has not been able to walk his dog on the park this week and has been working hard to get action from the council to get the travellers moved.

The date of August 16th for a Court case was the final insult for him and other local residents and Oli made his feelings known to Council officials. Following such pressure from local residents the Court case will now be heard tomorrow with the hope of swift action to follow on their removal from the site.

Oli is also calling for swift action to clean up the park and restore the play equipment to the site as soon as the travellers are removed.

PUTTING WEDNESFIELD FIRST

TRAVELLERS PETITION

Richard Whitehouse, the leader of Wolverhampton Liberal Democrat councillors, is calling for a second specific travellers' site for Wolverhampton. This would allow the authorities to remove travellers from illegal sites without having to obtain a Court order first.

This proposal was all set to go ahead last year before the local Wolverhampton Conservative Councillors decided to abandon the idea at the last minute.

**I support the proposal for a second travellers' site in Wolverhampton
To make it easier to remove travellers from illegal sites.**
